The "Red Corner" has lost its identity and is

than otherwise. Workmen are engaged in put-
ting the building in readiness for the new Bank.

some time, has disposed of his interest to Prof.
E. Swift, formerly of this city, who will attend
to the working up of the trade. Mr. Miles and
his brother, Harry, have rented a storeroom at
Lexington, and will, about the middle of Sep-
tember, open a retail tea, coffee and spice
store there. The field promises well, as this
will be the only one of its kind in that place.
Mr. Miles will spend several weeks here visit-
ing among his friends.

Mrs. Mary W. Holton, among many interest-
ing papers of long ago that belonged to the
family of her ancestor, Captain Charles Ward,
one of the largest land owners of the county,
has that gentleman's tax books when he was
Sheriff of the county in 1801. She has also an
autograph letter from Mrs. Louisa Keats, sister
of the poet Keats, who was then teaching a so-
lect school at Washington, addressed to Captain
Ward, regarding the placing of his daughter or
daughters at her seminary. It is well pre-
served. Mrs. Holton has an heirloom, a coun-

Amanda B. Ward, from her aunt, Mrs. Polly
Gill, who was a Miss Barker, a well known lady
of the county, that has been in the family for

growing smaller. Promptness will have its reward. Handsome \$5
and \$6 China white silk Waists \$2.98. Also \$3½ and \$4 Waists

FIRST—They are not only comfortable for warm weather but
will be equally so, over a lining, in winter.

SECOND—They can be worn so much longer than cotton
waists without laundering.

THIRD—They do not wrinkle when worn under a coat.

FOURTH—They are so much dressier than cotton waists.

FIFTH—You will probably never again have a chance to buy
handsome Silk Waists so cheap.

STOCKINGS FOR EVERY ONE.

The best stockings for the greatest number, at lowest prices
consistent with quality. That's the basis of this stocking depart-
ment and the reason why we sell the quantity we do every month.

And these low prices are lower than the prices at which many poor
stockings are sold—stockings we wouldn't tolerate here at all.

Because you can buy 25c stockings at any store don't im-
agine all stores sell the same quality in 25c stockings. If you are
a judge your recognition will be instant of the quality standard in
every line of hosiery we carry for men, women and children. Have
you seen the 50c fast black lisle and cotton stockings for women
we're selling 3 pairs for \$1?

THE PUBLIC LIBRARY

Insurance Company Will Repair It—James Wormald's Portrait

The Public Library insurance policy contains a clause, whereby the Company reserves the right to pay indemnity or replace the building in as good a condition as it was before the fire, and its representative has chosen the latter.

There is hardly a doubt but that its local agent, Mr. John G. Wadsworth, will take special pains in seeing that the city's pride is restored to its original beauty and to the entire satisfaction of all concerned. There should be no patch work business about it, and competent men should do the work.

There is a large oil painting of the late James Wormald—one of the founders of the Library—that is sadly neglected and in a state of decay. The portrait has passed through one fire and is blistered and otherwise disfigured. It is a shame that such is the case, but it is so, nevertheless. Steps should be taken at once to have the likeness restored before the outlines of the benefactor and philanthropist are entirely obliterated.

There are several artists in the city capable of restoring the painting, and the cost will not exceed \$60. Who of our philanthropist and well-to-do citizens will contribute the amount? Longer neglect will give a tinge of truthfulness to the saying that dead men and their good deeds are soon forgotten.

Don't you think you'd better let it be? When it's raining, rain away. For the sun will be shining bright. If you take Rocky Mountain Tea tonight. J. J. Wood & Son.

300 Acres of Tobacco Land!

Mr. Dan Morgan has this day listed with me his farm, located about 6 miles from Maysville, containing 300 acres of land, all of which is in a high state of cultivation. All but 60 acres of this land is in fine bluegrass, and not 5 acres on the entire farm that will not grow excellent tobacco. Very little of this farm has been cultivated within the past ten years, and is now ready for tobacco or anything that the purchaser may desire to use it for. As a money making proposition there is no other farm in Mason county that is its equal. It will be sold as a whole or in separate tracts to suit the purchasers.

IDEAL FISH STORY

Immense Catch of Mrs. J. A. Walton, Formerly of Germantown

An experience of Mrs. J. A. Walton, formerly of near Germantown, is related thus in The Redlands (Cal.) Review—

"Mrs. J. A. Walton, accompanied by Dr. E. W. Martin, who is visiting here from the East, and Dr. and Mrs. J. T. Stewart of Los Angeles, arrived from Catalina yesterday, where they spent the past five days fishing. Big catches of yellowtail and other game fish were made each day, but an interesting story is told of an encounter with a 400-pound Jewish Tuesday forenoon. After being out two hours, Mrs. Walton hooked the big fellow and at once turned the charge over to Dr. Martin, who tussled for an hour, the fish towing the party far out to sea. Just as he was brought up within gaff and just as the boatman reached for him, his tail became tangled in the line and he escaped. Each of the party, including the boatman, asserts that the fish would have been a record breaker for weight."

OVERCOAT WITH A RECORD

Worn for Fifty-Two Years by Pennsylvania Man and Exchanged for New One.

York, Pa.—Henry Wambaugh, of Shrewsbury, 82 years old, has just exhibited an overcoat which he has worn for 52 years. The coat is made of beaver and cost \$18 when he bought it, in October, 1853.

Wambaugh was the star witness in a line-fence case which has been in contention for many years. It finally found its way into court, and as Wambaugh built the fence, he was the star witness.

After testifying he asked to be taken to see Lehman. The latter was not in his place of business, and Wambaugh was taken to the residence.

To the merchant he said: "I purchased this coat from you 52 years ago. I came to York during one cold day in October, 1853. I bought the coat, and I have been wearing it every season since. I never owned any other."

Lehman ordered his clerk to take charge of the old garment, which is in an excellent state of preservation, and present the old man with a new one of the best material.

Before leaving for his home Wambaugh appeared before James J. Logan, a notary, and subscribed to an affidavit that he bought the coat in October, 1853; that he has worn it continuously ever since, and that he has owned no other coat during that extended period.

TAKING OXYGEN FROM AIR.

Interesting Scientific Experiments Witnessed by French Savants.

Paris.—Consul Brunot, of St. Etienne, writes that a group of savants of the Academie des Sciences, Paris, very recently paid a visit to a factory at Boulogne-sur-Seine to witness the manufacture for industrial purposes of enormous quantities of oxygen and nitrogen, extracted in a liquid state from the atmospheric air.

The consul says:

"Georges Claude, the inventor of the interesting process, furnished the explanations. As the liquid oxygen flowed out from the generator it was of a bluish hue, while the nitrogen was colorless. Several experiments were made for the visitors to prove the importance of having an abundant supply of oxygen at one's disposal; a forge set up in the grounds showed the wonderful effects of the gas. The fire, which had almost died out, was immediately rendered incandescent by a current of hydroxide from the blowpipe. A bar of iron was brought to a red heat and then melted like lead. Two pieces of iron were welded in a few minutes by the aid of a powerful flame from the blowpipe. Much costly and tedious riveting will be no longer necessary; iron will be welded against iron, copper against copper, etc. The doctors already foresee the possible treatment with liquid air of certain affections of microbial origin, such as osteomyelitis, anthrax and the malignant disease of the skin termed lupus."

WILL SPEND \$60,000,000.

Railroad Work in Mexico Will Keep Thousands Employed for Years.

Mexico City.—A general survey of the cost of railway extensions now under construction, changing the gauge on narrow gauge roads, terminals at the port of Vera Cruz, etc., show approximate expenditures of more than \$60,000,000. There will be abundant employment for thousands of men for several years.

The railways entering this city are to have a union station which, with the new terminals, will cost probably \$10,000,000. This improvement has been long contemplated.

Shortly after the opening of the Tehuantepec railway for through traffic from ocean to ocean the line will be made double track, making it the only double track road in the republic.

The new harbors at Coatzacoalcos on the Gulf of Mexico and Salina Cruz on the Pacific will shorten the time for freight shipments to New York and San Francisco two to three days and shorten the time between Europe and the west coast considerably.

TOY SHIPS ON EXHIBITION.

Models of Transports Are Shown to the Public at the War Department.

Washington.—Under the direction of Quartermaster General Humphrey of the army, models have been prepared of the United States transport Sherman. They are attracting much attention at the war department.

The models are about 20 feet long and show not only the exterior of the ship, but also the interior. One model represents the transport cut in halves and shows the relative positions of the quarters for soldiers, the passengers' rooms, coal bunkers, freight compartments and machinery rooms.

With great detail the interior has been worked out in such manner that nothing is left to the imagination. Even the beds for the men are reproduced on a small scale and the freight is represented by miniature barrels and boxes.

Actual coal is used in the bunkers and the machinery and guns are reproduced with such fidelity that they can be moved and adjusted in such manner that their position may seem more realistic.

SHORT DAYS ON THE FARM

Ten Hours to Be the Limit of Labor in a New Jersey District.

Swedesboro, N. J.—Again the South Jersey farmer is confronted with the help problem. Negro hands are arriving daily from the south, but the demand is away ahead of the supply. It is next to an impossibility to get good white farm laborers and many families do not care to employ the southern negroes.

Several farmers near Bridgeport have decided to make it a rule to work their men only ten hours a day. Usually the farmer works from sunrise to sunset, and it is believed by adopting the new rule just as much work can be accomplished, as the men will feel more like laboring.

For years George Sharp, one of the leading farmers of this section, has made it a rule to quit work at six o'clock, although he had his men in the field early in the morning. He never has any trouble in getting good employees.

Cattle Ablaze.

A few days ago two cowboys on the Matador ranch, near Channing, Tex., were dipping cattle in oil. They found one unbranded steer, and after flipping it, branded it. The heat of the branding iron set fire to the hair of the animal, which was soaked with oil, and it immediately dashed into a bunch of steers which had been dipped in the same fluid a few minutes before, setting them afire, from which 10 died.

Quite a number from here attended Ruggles Campmeeting last Sunday, but we have not been able to learn from any of them what kind of services were held; they politely inform us that they did not go to attend services, but all of them seemed to know how icecream, lemonade and water mellons sold.

NICE COMPLIMENT

Former Citizen Elected to Board of Education at Chattanooga

Mr. R. F. Thomas, a native of this city, but for many years a resident of Chattanooga, Tenn., has been elected a member of the Board of Education of that city. The following complimentary notice is taken from Tuesday's issue of The Daily Times of Chattanooga—
"Favorable comment was heard last night concerning the selection of Mr. Thomas as successor to Mr. Peoples. He is Vice-President of the Administration and Trust Company and Secretary and Treasurer of the parent Coca-Cola Bottling Company. Mr. Thomas is a native Kentuckian, a scholarly man of exceptional executive ability, and it would be difficult to select any one in Chattanooga better equipped and qualified to render most valuable assistance to the cause of public education. Before engaging in commercial pursuits Mr. Thomas devoted his time entirely to the practice of law and as a solicitor and counsellor yet enjoys an eminent position. He has been a resident of Chattanooga for many years and enjoys to marked extent the esteem of the community."
